Cybersecurity Specialist

EDUCATION

SUNY Buffalo State University   May 20XX
Bachelor of Science in Computer Information Systems

Hudson Valley Community College - Troy, New York   May 20XX
Associate in Arts in Liberal Arts

CYBERSECURITY EXPERIENCE

Cybersecurity Intern   Fall 20XX
New York State Electric and Gas - Lockport, NY
- Monitored intrusion detection system to identify potential threats and determine their legitimacy.
- Investigated suspicious computer activity by looking at aggregated logs from various sources.
- Managed and updated domain and IP blacklists on the firewall to block malicious software and devices.
- Built and launched a simulated phishing campaign against internal staff members and documented results.
- Scanned and documented vulnerabilities found on multiple internal development servers using Nessus.
- Developed a script that reports information on publicly accessible corporate devices using Shodan's REST API.
- Wrote and published to company's internal website monthly cybersecurity awareness articles to educate the staff.
- Presented information about ongoing projects during weekly and ad hoc meetings with the cybersecurity team.

RELATED EXPERIENCE

Information Technology Intern   Spring 20XX
Capital District Digital - Troy, NY
- Managed IT infrastructure and supported both small- and large-scale clients.
- Rebuilt network infrastructure for various school districts and churches across the region.
- Deployed client and server devices such as desktops, printers, phones, servers, switches, and firewalls.
- Completed seasonal contract work for large-scale engineering firm to manage their service desk.
- Serviced and repaired broken devices by replacing hardware or contacting device manufacturers.
- Built and customized servers and computers to company and client specifications.
- Managed and maintained Active Directories for domain users' accounts across various clients.
- Virtualized domain controllers and file servers in order to reduce physical space of hardware.
